Zilahi theme supplements the set theme which required pairs of black moves (here B2 & B3) and of white moves (here W2 & W3) and the remaining (3rd black and white) move by a piece other than the thematic pieces. Orthogonal-diagonal transformation of the play, which includes unpin of a white piece by the white king and self-block on h5 in each twin. (ZG)

The set theme [pairs of black moves (here B1 & B2) and of white moves (here W2 & W3) and the remaining (3rd black and white) move by a piece other than the thematic pieces] is combined with annihilation of a white pawn (on c4 or e4) by a black line piece (bR or bB) which subsequently sacrifices itself on c6, thereby allowing a white battery creation on c6.

Exchanges squares of arrivals (c4/e4 or e4/c4) on the black 1st and 3rd moves.

Orthogonal-diagonal transformation of the play. Battery model mates. (ZG)
